MATERIAL SAFETY DATA SHEET

Emergency Phone Numbers:                                                    April 2005
Florida Chemical: (863) 294-8483
CHEMTREC 24 Hour Number (800) 424-9300
Outside United States: Call CHEMTREC Collect

Section I - IDENTIFICATION

Trade Name: Cold Pressed Orange Oil – Early/Midseason & Valencia
Product Codes: 330000-Early/Midseason  331000 – Valencia  329000 – Orange Oil Blend
CAS Number: 8028-48-6

Section II - HAZARDOUS COMPONENTS

Volatile Ingredients: d-Limonene is the major component >90% of Early/Midseason and Valencia Orange Oil. Cold Pressed Orange Oil is a by-product of citrus, entirely of natural origina, and to the best of our knowledge and belief contains no artificial flavors, sulfites, nitrates, or pesticide residue exceeding tolerances established by the FDA. Cold Pressed Orange Oil does NOT contain lead, cadmium, mercury, or hexavelent chromium or come in contact with these chemicals since it is a citrus-derived essential oil expressed from orange peels. Further, Cold Pressed Orange Oil is packaged in food grade containers with inert liners that do NOT contain lead, cadmium, mercury, or hexavelent chromium. Cold Pressed Orange Oil does NOT contain and is NOT manufactured with any Class I or II Ozone-depleting substances listed under the United States Clean Air Act of 1990.

Hazardous Materials Identification System - HMIS:

1 Health Hazard - Mild skin irritant
2 Flammability - Flashpoint above 100°F
0 Reactivity – Stable
B Protection - Safety glasses & gloves recommended

This substance contains no materials subject to the reporting requirements of SARA TITLE III SECTION 313.

Section III - PHYSICAL DATA

Appearance                  Light yellow-orange oil
Odor                      Fresh orange aroma
Specific Gravity (25°C)    0.842 - 0.846
Refractive Index (20°C)    1.4700-1.4740
Optical Rotation (25°C)    +94° - +99°
Aldehyde, % (as decyl)     0.80 - 2.2
Flashpoint (CCCFP)         >110°F ASTM D6450
Boiling Point             349°F (176° C)
Evaporation Rate          0.2 (BuAc=1)
Water Solubility          Insoluble
Vapor Density (air=1)     Over 1
Vapor Pressure (20°C)      2mmHg
Percent Volatile by Volume 98%

Section IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point (CCCFP): >110°F ASTM D6450
Flammable Limits: LEL = Not Available UEL =Not Available
Extinguishing Media: Carbon dioxide, foam or dry chemical
**Special Fire Fighting Procedures**: SCBA recommended. Smother to exclude air. Do not use water. Handle as an oil fire.

**Unusual Fire and Explosive Hazards**: Combustible liquid. Keep away from heat, sparks, and open flame.

**Incompatibility (Materials to avoid)**: Strong oxidizing agents.

**Hazardous Decomposition Products**: Not Available

**Hazardous Polymerization**: Will not occur

**Conditions to Avoid for Polymerization**: Not Available

**Stability Considerations**: Stable

**Conditions to Avoid for Stability**: Avoid temperatures over 118°F (48°C).

---

## Section V - HEALTH HAZARD DATA

**Health Hazards (Acute and Chronic)**: Product is a moderate irritant, moderate ingestion and slight inhalation hazard under acute local application.

**This Product Contains No Carcinogens (NTP, IARC or OSHA)**

**Signs and Symptoms of Exposure**: Product may be irritating to the skin, eyes, nose and throat.

**Medical Conditions Generally Aggravated by Exposure**: Persons with allergies or pre-existing skin conditions should avoid contact with this product.

---

## Section VI – EMERGENCY FIRST AID PROCEDURES

**Eye Contact**: Remove contact lenses at once. Immediately flush eyes with large quantities of clean water for at least 15 minutes. Call a physician immediately.

**Skin Contact**: Remove any contaminated clothing or shoes. Thoroughly wash affected area with soap. Flush with large quantities of clean water. If irritation develops or persists, call a physician.

**Ingestion**: DO NOT induce vomiting. Administer water and call a physician or local Poison Control Center immediately.

**Inhalation**: Remove to fresh air and contact a physician immediately.

---

## Section VII - SPILL OR LEAK PROCEDURES

**Steps to be Taken if Material is Released or Spilled**: Use protective gloves to avoid skin contact. Small spills can be wiped up. Large spills should be absorbed by dirt, sand, or other suitable absorbents for disposal. Do not hose spills down drains, sewers, or waterways. Cold Pressed Orange Oil may be toxic to aquatic organisms. Move leaking containers to well ventilated area. No smoking. Eliminate any source of ignition. Minimize inhalation. Use NIOSH approved respiratory protection device. CAUTION: slippery on floor.

**Waste Disposal Method**: Incinerate or Dispose in Accordance with Local, State, and Federal Regulations.

---

## Section VIII - SPECIAL PROTECTION INFORMATION

**Respiratory Protection**: Not normally required. If vapor concentration becomes high, use NIOSH approved respirators.

**Ventilation**: Local exhaust should be adequate. Mechanical ventilation otherwise recommended if necessary.

**Skin Protection**: Oil resistant gloves.

**Eye Protection**: Oil resistant goggles.

**Other Protective Equipment**: Oil resistant apron, emergency eye wash and shower stations.

**Appropriate Hygienic Practices**: Wash thoroughly after handling. Launder contaminated clothing before re-use.

---

## Section IX - SPECIAL PRECAUTIONS

**Precautions to be Taken in Handling and Storing**: Usual precautions for combustible liquids.

**Handling and Storage Precautions**: Store in warehouse with proper sprinkler/fire deterrent system. Avoid contact with incompatible chemicals listed in Section IV. Store in tightly sealed, full containers in well-ventilated controlled warehouse conditions. Partially filled containers should be blanketed with nitrogen. 

**Other Precautions**: Product may expand slightly in storage causing pressure to build in container. Carefully open container if product appears to be under pressure. Drum lining may occasionally chip and fall to bottom of container after long storage or excessive handling. As a precaution, pour liquid through filter/strainer to catch small pieces of liner before blending or repackaging. Commerially clean empty containers before re-use. CAUTION: Do not weld or cut empty containers (Vapors May Ignite).
